SOFTWARE ENGINEERING / MOBILE + WEB

Samir Tagizade

Senior Software Engineer

React Native | React | Node.js | TypeScript

tagizade.samir@gmail.com linkedin.com/in/samir-tagizade x.com/tagizade_samir

PROFILE 01

Software engineer focused on intuitive, reliable products. Core expertise in React Native, complemented by React interfaces and Node.js services. Currently employed at AndersenLab; personal projects in my free time.

SELECTED EXPERIENCE 02

AndersenLab

2022 - Present

React Native development for fintech and healthcare products: payment flows, secure storage, analytics, testing, performance, and store releases. Production support and client communication; mentoring, technical interviews, teaching, resource management, and pre-sale estimations.

Freelance

Since 2022

Web development for a learning product: video, real-time community chat, and content delivery using React, Next.js, and a monorepo setup.

XCritical Softver

2020 - 2022

React Native development for XCall: real-time audio/video with WebRTC, messaging, push notifications, permissions, and device management. Contributed to testing, optimization, and teaching.

Delta Telecom

2019 - 2020

Operator. Professional experience before transitioning to software.

TECHNICAL FOCUS 03

React Native, React, Next.js, Node.js, JavaScript, TypeScript, Redux, Firebase, WebRTC, Jest, React Native Testing Library, Android Studio, and Xcode.

EDUCATION 04

Azerbaijan Technical University - Management

Master’s degree: 2018 - 2020 | Bachelor’s degree: 2013 - 2017
Dev Education - Mobile Development with React Native, 2020

LANGUAGES 05

Azerbaijani: fluent | Russian: fluent | English: upper intermediate
